I have to keep telling folks which databases are available for free at the local libraries. Thought I'd make another list of resources for those. The following are the links for ALL their databases. I'll list the ones that apply to genealogy after this:

Germantown Regional History and Genealogy Library (and TNGS): <http://www.germantown-tn.gov/index.aspx?page=882>

Memphis Public Library - all databases: <http://www.memphislibrary.org/databases>

Collierville Library - all databases: <http://www.colliervillelibrary.org/resources/search-library-online-databases>

Germantown Regional History and Genealogy Library (and TNGS) Genealogy:

Ancestry Library

Fold3

Heritage Quest

Also have Newspaper and history sites that apply

Memphis Public Library Genealogy:

Ancestry Library

NewsBank - America's Newspapers

NewsBank - Tennessee Newspaper Collection

Collierville Library Genealogy:

Ancestry Library

Heritage Quest (also available from home)

Tennessee Death Records

They also have newspaper, magazine and history databases that can be useful

Search the Germantown Regional History and Genealogy Center Catalog:

<http://wrlc.librarycatalog.info/polaris/default.aspx?ctx=8.1033.0.0.2>

It's under maintenance, so all titles are not consistent yet. Example: Tennessee may be spelled out or be TN. Try more than one way when looking for material until the conversion is complete.

[note the link at the top right to choose a library. Choose the Germantown Regional History and Genealogy Center from the dropdown. It doesn't show up as an option where the other libraries are listed.]

Tina was using the resources from the following site in her Genealogy 101 class. There are some good resources here, so I'm going to filch the link from her!!
